INNOVATION, EFFICIENCY, ENERGY SAVING AND ECO-SUSTAINABILITY

HEADQUARTER

G.A. Ricambi is an Italian company leader in the supply of spare parts for earthmoving machinery, trucks and industrial vehicles. G.A. Ricambi has developed, in recent years, a business unit dedicated to provide services on large bore diesel and gas engines, with a defined roadmap and a main target to growth as a total service provider, for its current and potential customers. Today it is able to provide a range of unparalleled services, in the industrial and energy sectors.

The company headquarters is an innovative structure, designed for the future and for the protection of the environment. It extends across an area of 20,000 square meters, of which 15,000 are covered. All is entirely managed by a system of building automation, in which a solar system and a geothermal plant permit reliance upon an inexhaustible energy source, constantly available and above-all renewable.

20.000 Mq OF WAREHOUSE

300.000 PARTS NUMBERS READY IN STOCK

WAREHOUSE

Advanced automatic
picking technologies

The highly-automated warehouse is equipped with the most modern and avant-garde technologies for receiving, storing and shipping goods and allows customers to be served with extreme speed. Wherever they are located.

REBUILD SERVICE COMPONENTS

A large industrial engine, likely a marine diesel engine, is shown in a factory setting. The engine is painted blue and white, with a long row of cylinders. It is mounted on a blue base and has various pipes and components. The background shows a large industrial building with a high ceiling and structural beams.

CERTIFICATIONS AS A GUARANTEE OF QUALITY

Certification REX NR. ITREX03587590369
CODICE EORI IT 03587590369

G.A. RICAMBI in 2020 obtained the **REX Certification**. The REX system is used for the certification of origin under preferential trade agreements.

This system simplifies customs export procedures by allowing registered exporters to certify preferential origin by means of a declaration on an invoice or other commercial document.

STATUS EA - Approved Exporter
Nr. IT/35/MO/20

G.A. RICAMBI obtained approved **exporter status** in 2020. Approved exporters can issue declarations of preferential origin on the invoice, regardless of the value of the goods exported. These declarations replace the Eur1 certificates of origin as proof of the preferential origin of the goods.

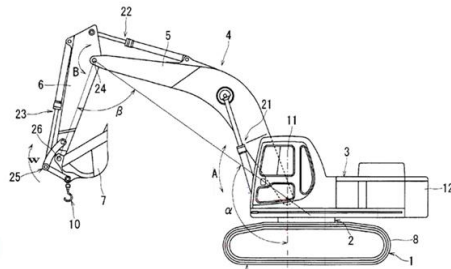

AEO
Authorized Economic Operator

G.A. RICAMBI in 2021 obtained the **AEO (Authorised Economic Operator)** certification, in order to acquire a clear position in the international trade supply chain, to be recognized as a reliable partner and above all by the world customs to ensure benefits for customers. The recognition of AEO status, however, allows economic operators to benefit from advantages and facilities of a direct and indirect nature in relation to the customs relevance operations performed.
