PHARMA

WELLNESS SOLUTIONS

Innbiote Pharma

- At Innbiotec Pharma, we research, produce and market innovative solutions for people's well-being
- Mission: "To improve people's well-being through our research and innovative natural products. Made in Italy, for the world."
- The company was founded in 2015 as a spin-off of the Department of Molecular Biology of the Faculty of Medicine of the University of Florence (Careggi), to enhance technologies developed in 15 years of research. In 2020 it changed its name to "Innbiotec Pharma srl based in Arezzo.
- We research natural ingredients and create and patent innovative compounds with proven clinical validity to give rise to products with efficacy confirmed by numerous in-house studies, years of scientific research and multiple patents
- After a multi-year development phase conducted with our own in-house team and in constant collaboration with Italian and international universities.

Our key technologies

Bacopa Monnieri

Why is it so important?

Bacopa Monnieri

Improves memory, the reduction of anxiety. Research shows that it can increase brain function and relieve anxiety and stress.

Glutathione GSH

Why is it so important?

The King of Antioxidants

Antioxidant par excellence, fights free radicals. It acts as a detoxifier for the body and fortifies the immune system.

Oleuropeina

Why is it so important?

A valuable polyphenol from Olea europaea

Antioxidant properties and anti-inflammatory. Carries out natural antiviral and antimicrobial.

After the age of 40, one may experience a decline in cognitive ability, memory and concentration difficulties. It improves and enhances the performance of cognitive functions.

**Counteracts
cognitive deficits**

**Promotes memory
and concentration**

**Boosts cognitive
performance**

**EUVITASE ADVANCE is the dietary supplement based on
Bacopa, Olive, Glutathione, Withania,
Myo-Inositol, Saffron, Black Pepper and Vitamins.**

EUVITASE ADVANCE has a specific composition of ingredients to help you maintain a young and exercised mind even after age 40

Bacopa monnieri	260 mg	Promotes memory and cognitive function, relaxation and mental well-being
Oleuropeina	260 mg	Antioxidant properties, helps prevent aging premature aging of cells
Glutathione	160 mg	Most important antioxidant at the cellular level
Whitania	100 mg	Tonic and energizing properties for physical and mental well-being
Myo - Inositolo	60 mg	Antidepressant and anxiolytic properties
Vitamina E	18 mg	Contributes to the protection of cells from oxidative stress
Zafferano	10 mg	Fights oxidative stress
Vitamina B 12	10 mcg	Contributes to normal energy metabolism
Vitamina B 6	5.6 mg	Functioning of the nervous system and to normal psychological function
Pepe nero	6 mg	Antiseptic properties
Vitamina D	10 mcg	Contributes to the normal absorption/utilization of calcium and phosphorus
Biotina	200 mg	Facilitates amino acid metabolism

products for health and
well-being.

Innovative Formula

The active ingredients of our
products are patented.

**Efficacy demonstrated
by clinical studies**

The active ingredients have been
the subject of a recent study
clinical study conducted at
the FateBeneFratelli Institute in
Genzano, Rome.

Our observational study at Fatebenefratelli in Rome

A bioavailable form of glutathione and Olea europaea polyphenols have been included in the formulation of Euvitase Advance, an innovative nutritional supplement that was the subject of a recent clinical study conducted at the Fatebenefratelli Institute in Genzano (Rome) in which twenty patients with early-stage Alzheimer's disease were treated for six months with the glutathione and oleuropein-based supplement. The study, coordinated by Prof. Massimo Marianetti, demonstrated a statistically significant improvement in all psycho-neurological parameters measured at the end of treatment compared to the beginning. The results of the study were then presented at the 25th World Congress of Neurology and published in March 2022 in an international scientific journal **.

Statistically significant and encouraging results

**The results
of the study
are very
significant**

- **The treatment effect is statistically significant on all 14 outcome variables, and 11 of them are significant at the 1% level**
- **This means that there is more than 99% probability that this outcome is attributable to the treatment effect of our composition.**

**Synergistic
effect of
SAG and
OLE**

- **Overall, the treatment is found to successfully decrease the effects of neurodegeneration in all observed outcome variables**
- **These effects were attributed by the authors to a synergistic effect of the two active compounds, bioavailable glutathione and Oleuropein, of the pharmaceutical composition used in the study toward two hallmarks in the early stages of Alzheimer's pathogenesis: (A) neurotoxic activity of amyloid protofibrils and (B) neuronal oxidative stress.**

Conclusion

- **The results strongly suggest that the formulation can be adopted effectively for the patients with cognitive impairment and mild Alzheimer's, as well as an effective tool for prevention in individuals at risk of developing dementia**

RENOVASE

INGREDIENTE ATTIVO
BREVETTATO

DERMAiNN

— INNBIOTEC

SKIN CARE

Thanks to the patented active ingredient, Renovase® with Glutathione and Omega 3 we make innovative dermocosmetics products.

RENOVASE SPOT

€ 24,99

The indispensable ally for fighting dark spots due to aging and sunlight exposure thanks to the action of Renovase® and Hyaluronic Acid.

RENOVASE MASK

€ 39,00

It guarantees, thanks to the combined action of Renovase® and glycolic acid, an effective detox and purifying effect, for radiant and regenerated-looking skin.

RENOVASE LENITIVE

€ 19,99

Counteracts irritative states, skin redness and rashes, sunburns and insect bites. Its formula is designed to deeply soothe.

RENOVASE CELL

€ 24,99

It contains a 'combination of natural active ingredients, Renovase® and Omega 3. It acts profoundly by physiologically stimulating lipid metabolism, promoting the restoration of optimal blood circulation and tissue detoxification.

RENOVASE NIGHT

€ 24,99

Night Face Cream acts deeply with the combined action of Renovase® and Hyaluronic Acid, the skin appears regenerated due to the intense anti-wrinkle effect. Renovase® based on Glutathione and Omega 3 .

RENOVASE HYDRO

€ 23,99

Day Face Cream formulated with Renovase® and Hyaluronic Acid, has an intense antioxidant action protecting against UV damage and reducing signs of aging.

HAIR BEAUTY

Grazie all'ingrediente attivo brevettato Renovase® con Glutathione e Omega 3 creiamo prodotti dermocosmetici innovativi.

BIOTRIKOS
€ 39,99

Patented Medical Device, stimulates hair regrowth by optimizing the metabolism of scalp follicular cells, nourishes the skin and counteracts thinning. Based on Oleuropein and Renovase®.

BIOTRIKOS SCALP
€ 18,99

Formulated to deeply cleanse and purify the scalp. Thanks to Oleuropein, it calms irritation and balances sebum production, the source of dandruff.

RENOVASE SHAMPOO
€ 15,99

Thanks to the extraordinary effectiveness of Oleuropein, it rebalances the well-being of the scalp by normalizing sebaceous secretion and reducing the risk of irritation.
