

AIRLESS TESTAROSSA SUPERVENTIMILA

AIRless TESTAROSSA SUPERVENTIMILA

Technical features:

- EC compliant electric motor equipped with motor protector
- Power: Single-phase kW 2.2 V.230/50 Hz
- Noise level per EC standards (75 dB)
- Maximum Pressure: 250 Bar
- Free delivery: 17 l/min
- Maximum diameter of spray nozzle hole: 0.045"
- Prevalence: 90 metres

The Airless method allows you to paint with a very high yield without the formation of fog (overspray). Thanks to the high operating pressure and flow rates at the top of the range, our machines allow you a truly surprising speed of execution.

Airless paint sprayer strength Testarossa series mod. Superventimila and its double header give you the opportunity to stack two different products at the same time.

However, you can always use it with the same product and with the single gun, thus having the advantage of doubling the load capacity and having to feed the paint containers less times.

Its range of action, which comes with the single gun at 90 m both horizontally and predominantly, means less waste of time for you in having to move the machine during use.

The paint sprayer is suitable for various types of machining: from construction (external, internal, waterproofing) to carpentry and industry.

The sprayable products are: enamels, paints, primers, antirust, tempera, washable and quartz paints, asbestos encapsulants, intumescent, two-component, latex, resins and oils.

The standard kit consists of:

- TECNOVER airless paint sprayer mod. Trolley-mounted Testarossa Superdiecimila
- Double suction system F36x2 with a stainless steel filter
- Double Connector with a pressure gauge
- Double Anti-vibration hose
- Double High-pressure hose sing. metal braid diam. 1/4" , WP 300 Bar, length 10 metres
- B500 Professional Airless Spray Gun
- Extension of 50 cm for Airless Spray Gun
- Kit Base + Paintip self-cleaning nozzle

Guaranteed by the TECNOVER brand, a leading Italian company with over 35 years of experience in the sector that guarantees reliability and efficiency over time.
