GLUTEN FREE PASTA

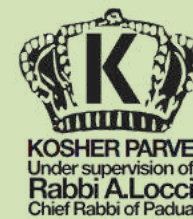

WHO WE ARE

Our story begins in 1959 on the outskirts of Padua with **Dietetici Moderni Sas**, which later became **Dialcos SpA**.

We have been an entirely **Gluten Free food company** for over 20 years. Our aim has always been to create innovative products while maintaining the taste of tradition.

This idea led to the creation of our Dialbrodo brand, a line of broths and granulated seasonings, natural alternatives to the classic cube bar, which promotes a reduced-fat diet without sacrificing flavour. Since 2006, given the pressing demand for quality in the world of gluten-free pasta, we have been taking the field with our **Dialsi** brand.

Because a gluten-free diet can also be synonymous with taste! Our two classic lines and more than 20 pasta shapes will please everyone at the table, young and old alike.

WHAT WE DO

We have been producing gluten-free pasta for over 20 years.
