ANTIAGING

Eye Contour Filler Cream

- Precious eye contour cream formulated with hyaluronic acid microspheres with exclusive performances. Effectively fights the signs of ageing and reduces the appearance of dark circles.
- **USE:** apply a small quantity of product every morning and evening, then massage with circular movements until complete absorption. Keep out of reach of children.

ACTIVE INGREDIENTS

FUNCTION

ICS Antiaging [bio-intelligent micro-ingredients]

This technology represents a step forward in skin rejuvenation. It consists of a revolutionary double-layer capsule with surface peptides that are able to selectively bind to fibroblasts. The capsule, as if equipped with a GPS device, is able to reach the fibroblasts and release to them the anti-aging ingredients. This is able to stimulate the production of collagen and elastin with a performing anti-aging action.

Dehydrated microspheres of low molecular weight hyaluronic acid (<40kDa) and konjac, a high molecular weight polysaccharide (> 200kDa)

They penetrate the upper levels of the epidermis, capture the water that normally evaporates from the skin and, thanks to the ability of hyaluronic acid to act as a sort of "molecular sponge", swell and increase their volume. In this way, they exert pressure that pushes the epidermis upwards, reducing fine lines and deep wrinkles with a filler effect. It also has a long-lasting moisturizing action.

Liposomes of hyaluronic acid

Hyaluronic acid has a moisturizing and plumping action, the liposomal structure improves the delivery of the active allowing greater penetration into the skin.

Extract of the highest quality of Fucus Vesiculosus harvested manually near the Gulf of Maine.

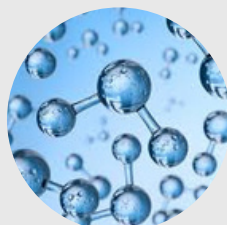

It brightens and improves the appearance of dark circles already after two weeks from the beginning of the treatment. It stimulates the synthesis of collagen by performing a significant anti-wrinkle effect. It has an antioxidant action and improves the overall appearance of the eye area.

Mucilage of Calendula (Calendula officinalis)

It has a moisturizing, soothing and nourishing action.

Snail Slime

Rich in mucopolysaccharides with protective action, film-forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action.

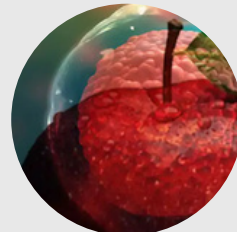

ANTIAGING Filler Cream

- Exclusive face cream formulated with active liquid crystals that enhance the absorption of active ingredients. Enhanced with hyaluronic acid bio-microspheres that have a filler effect on wrinkles. The presence of plant stem cells and vitamin C microlipids provides an antioxidant and revitalizing action. It leaves a nourished, hydrated and smooth skin.
- **USE:** after thorough cleansing, apply a small quantity of serum and massage until complete absorption. Keep out of reach of children.

ACTIVE INGREDIENTS

FUNCTION

ICS Antiaging bio intelligent microingredients	Revolutionary double layer capsule with peptides anchored to its surface that are able to select and target the Fibroblasts (as a GPS device) e li release the active ingredient antiage enclosed in the capsule This stimulates the production of collagen and elastin with a performante
Cross-linked and dehydrated microspheres of low molecular weight Hyaluronic Acid combined with high molecular weight polysaccharides derived from a variety of Asian plant	They penetrate the upper layers of the epidermis, capture water that normally evaporates from the skin and exploit the ability of hyaluronic acid to act as a kind of "molecular sponge", they swell and increase in volume Thus exert a pressure that pushes upwards the epidermis, thus reducing even the deepest wrinkles with an authentic filler effect
Apple Plant Stem Cells	Provide important nutrients to human stem cells in the basal layer of the epidermis Native plant cells, derived from a rare Swiss apple variety, protect against UV rays and preserve the youthful appearance of the skin. They combat premature ageing by acting as an antioxidant
Argan Oil	It has antioxidant, emollient, moisturizing and highly elastic properties Thanks to its content of several essential fatty acids it has an intense nourishing action
Stabilised Vitamin C Microlipids	Have an inhibitory effect on melanogenesis, protect from photoaging and stimulating collagen synthesis In the form of microlipids they have a similar structure to cell membranes, prolong their bioavailability and have better absorption on the skin
Snail Slime	Rich in mucopolysaccharides with protective action, film- forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action.

ANTIAGING

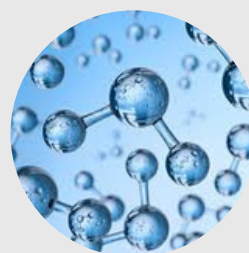

Snail Face Serum

- A precious serum formulated with an high percentage of Snail Burr and a protective, filmogenic and moisturizing action. In combination with the Hyaluronic Acid, it has a restorative and protective action on the skin, helping to oppose the signs of aging.
- Use: after cleanse perfectly, apply a small quantity of product morning and evening until completely absorbed.

ACTIVE INGREDIENTS

FUNCTION

Snail Slime	Rich in mucopolysaccharides with protective action, film- forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action.
Hyaluronic acid	It has an intense moisturizing and plumping action. By enhancing the skin's moisture barrier, it improves elasticity and promotes a dewy, youthful complexion. Suitable for all skin types, hyaluronic acid is a key ingredient in many hydrating and anti-aging skincare formulations.
Fragrance	Warm and sophisticated fragrance that blends rich tobacco notes with deep, woody accords. It offers a balanced mix of smoky, earthy, and slightly sweet tones, creating a refined and timeless scent.

ANTIAGING

Snail Face Cream

- A soft cream with a very soft and evanescent texture, which thanks to the very high content of the precious snail slime is suitable for treating and preventing signs of premature skin ageing: wrinkles, loss of elasticity, dryness, dyschromia. In addition, the product is particularly suitable for reactive skins where it gives relief and carries out a moisturizing and soothing action.
- **USE:** apply the cream in the morning after facial cleansing with a gentle massage. The skin will be fresh and bright.

ACTIVE INGREDIENTS

FUNCTION

Snail Slime	Rich in mucopolysaccharides with protective action, film- forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action
Calendula mucilage	It has an anti-inflammatory, soothing, moisturizing and nourishing activity
Aloe Vera	It has a moisturizing, soothing, anti-inflammatory and nourishing action.
Ginseng	It is known for its revitalizing, toning and stimulating microcirculation action.
Vitamin E	It has an antioxidant action protecting the skin from skin aging due to the formation of free radicals.
Liquid Crystal Emulsifier derived from olive oil	Thanks to its chemical and physical properties similar to those of the skin, it can perfectly be integrated with the epidermal barrier and strengthen its integrity. It considerably contributes to intensifying skin hydration. It leaves the skin soft and silky.

Body massage cream oil

- **Massage cream that guarantees a high smoothness thanks to its ability to turn into an oil after a few seconds of massage. It contains ivy, Asian pennywort, sea oak and vitamin E with an emollient, nourishing and protective action.**
- **USE: apply the product to the concerned area and start the massage.**

ACTIVE INGREDIENTS

FUNCTION

Centella extract (<i>Centella asiatica</i>)	It has a regenerating and soothing action, helps the normal functionality of the microcirculation for an elasticizing, firming and toning effect. Assist the treatment of cellulite.
Sea oak	Promotes fluid turnover and has a reducing, toning, stimulating action and helps to counteract cellulite.
Ivy extract (<i>Hedera helix</i>)	Rich in soothing substances and antioxidants, it has a strong energizing, refreshing and stimulating effect.
Vitamin E (<i>Tocoferol</i>)	It has an antioxidant action protecting the skin from skin aging due to the formation of free radicals.
Shea butter (<i>Butyrospermum parkii</i>)	Rich in unsaponifiable fractions, it contains sitosterols, vitamins and has an intense soothing and nourishing action.
Snail Slime	Rich in mucopolysaccharides with protective action, film- forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action.

Snail Body Cream

- **Body cream with a very silky and evanescent texture.**
Thanks to a very high content of precious snail secretion, it is recommended to treat and prevent the signs of premature skin aging: wrinkles, loss of elasticity, dryness, dyschromia. The product is particularly suitable for reactive skin, it gives comfort and it has a moisturizing and soothing action.
- **Use:** Apply the cream on the affected areas until completely absorbed for a fresh and bright skin.

Snail Slime	Rich in mucopolysaccharides with protective action, film- forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action.
Aloe Vera	It has a moisturizing, soothing, anti-inflammatory and nourishing action.
Hypericum perforatum	It has a stimulating and tonifying action.
Centella asiatica extract	Rich in flavonoids and phytosterols that perform an anti-aging, soothing and elasticizing action. Stimulates the production of collagen for a more toned skin.
Vitamin E	It has an antioxidant action protecting the skin from skin aging due to the formation of free radicals.
Liquid Crystal Emulsifier derived from olive oil	Thanks to its chemical and physical properties similar to those of the skin, it can perfectly be integrated with the epidermal barrier and strengthen its integrity. It considerably contributes to intensifying skin hydration. It leaves the skin soft and silky.

Cleansing milk

- Soft cleansing milk that gently and effectively removes make-up and impurities, leaving the skin soft, nourished and intensely moisturized. Enriched with Shea Butter, Jojoba Oil, Sunflower Oil and Vitamin E, it offers a deep nourishing action. The formula, enriched with high molecular weight Hyaluronic Acid, Aloe and moisturizing ingredients that mimic the Natural Moisture Factor (NMF), helps maintain optimal hydration. Distilled Witch Hazel Leaf Water, with rebalancing properties, completes the treatment, making it ideal for all skin types.
- Use: apply to the face and massage gently with circular movements. Rinse with lukewarm water using a cotton wool pad or sponge for optimal cleansing.

ACTIVE INGREDIENTS

FUNCTION

Sun Flower Seed Oil	High in polyunsaturated fatty acids (linoleic and linolenic), it has a nourishing, emollient and protective action.
Jojoba Oil	Liquid and light, has a emollient, moisturizing and restructuring of dry skin.
Karité Butter	It is rich in healing properties. It has excellent anti-inflammatory properties and stimulates the production of collagen. Contains phytosterols and vitamins for an intense soothing and nourishing effect.
NMF – Natural Moisturizing Facto	It is composed of a mixture of sugars, amino acids and provitamin B5. It is used to replenish the natural NMF (Natural Moisturizing Factor), that is the set of substances that the skin uses to maintain its optimal level of hydration.
Aloe Vera	It has a moisturizing, soothing, anti-inflammatory and nourishing action.
Ialuronic Acid	It has a moisturizing effect. It leaves the skin smooth, soft and compact. It helps fight the signs of aging.
Vitamin E	It has an antioxidant action protecting the skin from aging.
Snail Slime	Rich in mucopolysaccharides with protective action, film- forming and moisturizing. It also contains glycolic acid, which in the concentration present in the burr acts as a moisturizer, and allantoin with a protective and protective action.
