It operates in the agri-food sector, has been processing and marketing one of the most valuable Cultivars of Table Olives “La Nocellara del Belice” for decades. From the Nocellara del Belice, an Extra Virgin Olive Oil with very low acidity and of the highest quality is extracted. The extra virgin olive oil produced by our company, very pure and natural, is a real squeeze of olives. Oil with an intense fruity flavor, of notable fragrance and freshness.

The “Nocellara del Belice” olive is a Sicilian gastronomic excellence, produced in the Belice Valley.

The pulp of the olives is firm and crunchy and the taste is slightly bitter. Being a large olive, the layer is thick and firm, which makes it an exceptional table olive, excellent for all uses: often consumed as an aperitif or to season dishes.
