Shipping costs for outside Italy are estimated for each order

Soluzioni strettamente ecologiche, i nostri mobili vengono realizzati principalmente in cartone ondulato tripla onda spessore 14mm opportunamente sagomato.

Il cartone impiegato per la costruzione dei mobili, è conforme a quanto previsto dalla legislazione vigente, direttiva CEE 94/62/CE e D.L. 22/97 e che sostanze chimiche quali: Composti Alogenati, Eteri di Glicole, Ftalati, Formaldeide, Cloro, Composti Clorurati, Fenoli, Bisfenoli, Idrocarburi policiclici aromatici, Perfluorotano sulfonato, Benzopirene, p-ter-butifenolformaldeidica, Toluene, Benzene, Antracene, Benzophenon, 4-Methylbenzophenon, Dimetilfumerate, Zolfo riducibile, agenti anticorrosivi, Notrosamine, Tribromofenolo, e tutte le sostanze della lista SVHC, non vengono né immesse né utilizzate nei processi di produzione del cartone ondulato che compongono i nostri mobili.

L’utilizzo di materiali di supporto, oltre al cartone, come vetri, tessuti, imbottiture, sono anch’essi scelti per le loro caratteristiche di prodotti naturali, riciclabili ed ecosostenibili.

Tutti gli aspetti sia produttivi che di commercializzazione si caratterizzano per essere affrontati con il minor spreco di energia e materiali. Questo permette l’utilizzo di questi prodotti non solo per eventi temporali come fiere e mostre ma anche per lunghi periodi di tempo.

In alcune linee sono visualizzate delle composizioni che possono essere realizzate usufruendo dei moduli base: sono spunti che hanno lo scopo di far comprendere i metodi di costruzione e personalizzazione da adottare a seconda delle esigenze.

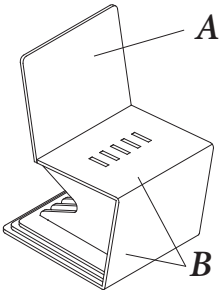

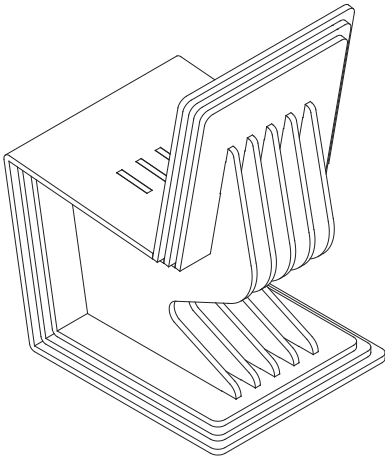

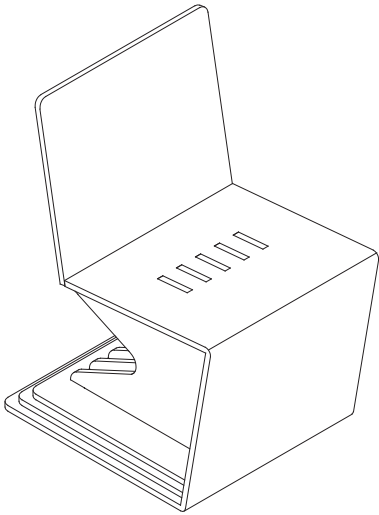

I cuscini per le nostre sedute sono tutti realizzati con 100% di cotone, colore ecrù, con imbottitura in materiale espans
