EXTRAIT

BRAND IDENTITY SEAL

The wax Seal is a tribute to the artisanal tradition that has driven Officina delle Essenze for over 20 years. With the Seal, we certify the authenticity of the fragrance and highlight the preciousness of its creation.

Each Extrait is immediately recognisable and identifiable by the colour of its Seal.

PERFUME IDENTITY CREST

The Crest identifies the soul of each fragrance.

Through the Crests, we convey the character and inspiration behind every scent, making it instantly recognisable and deeply connected to its meaning.

BAROCCO

MOOD

BAROCCO SICILIANO

Born in the 17th century as a response to the stylistic rigidity of the time, Sicilian Baroque represented a creative rebellion - an explosion of opulence and dynamism that transformed architecture, sculpture, and the decorative arts, infusing energy and theatricality into every detail.

While the world conformed to a flat, restrained style, Baroque rose irreverently, showcasing irregular forms, dramatic exaggerations, and an abundance of ornaments that defied the rules.

Embodying that same nonconformist spirit, Extrait Barocco carries the rebellious and grand soul of those times.

Opulent and magnetic, Barocco refuses compromise and embraces olfactory drama. With its powerful and vibrant trail, Barocco transforms the wearer into a living work of art, capable of defying banality and leaving an indelible impression.

Barocco is the olfactory expression of an era when art dared to be different - a fragrance that brings irreverence and spectacle to the world of artistic perfumery, evoking the irresistible allure and exuberance of that mythical period.

The Crest captures the essence of Baroque Sicily, a mosaic of history and art.
Its flowing lines and intricate details evoke memories of beautiful majolica, church facades,
and historic palaces from the Sicilian Baroque period.

OLFACTORY DESCRIPTION

BAROCCO

Barocco opens with an explosion of Sweet Orange and Bitter Almond, evoking the bittersweet soul of Sicily.

The heart of the fragrance unfolds in a rich and enveloping embrace where Marzipan and Liquor-infused accents blend, amplifying the baroque harmony of the composition. Balsamic notes of Tonka Bean and Peru Balsam emerge like a work of art, offering a luxurious, sumptuous, and almost theatrical depth.

The scent evolves with hints of Candied Fruit, Caramelised Sugar, and a touch of Coffee that ignite the imagination, merging with a persistent Almond note from start to finish.

At the base, an enveloping mix of Fruity Musks, Patchouli, and Tolu Balsam, amplified by warm Amber notes, gives the fragrance a sophisticated complexity and extraordinary longevity. The Musks, silent protagonists, add fluidity and a three-dimensional quality, weaving each nuance into a soft and voluptuous tapestry.

Barocco is not just a fragrance, but an olfactory experience that embodies the excess, beauty, and drama of Sicilian Baroque, bringing irreverent elegance to artistic perfumery. A trail that does not go unnoticed, a symphony for the senses that invites you to dare and stand out.

SHÉRDAN

MOOD SARDINIA

Known as legendary warriors of the sea, the Shardana sailed the Mediterranean in the distant 13th century BC, challenging the great empires of the time.

Recognisable by their helmets and large round shields, these fighters left a profound mark on the history of Sardinia, becoming a symbol of strength and resilience. Their legacy is still visible in the ruins of the Nuraghi, majestic stone towers that dot the island, telling the epic story of courage and tenacity.

Extrait Shérdan is inspired by this ancient history, celebrating Sardinia, where wild nature meets the echoes of past battles.

A fragrance that resonates like a call to an island that has defended its identity through the centuries, with a character forged by wind and salt, by stone and water. Here, the sea is not just a backdrop but a protagonist, constantly conversing with the land, carrying salty aromas that evoke freedom and adventure.

Shérdan tells a sensory journey along the Sardinian coasts, where the scent of the sea intertwines with wild myrtle, rosemary, and the earthy essences of the Mediterranean scrub. A tribute to a proud and indomitable people who live in harmony with their land and sea, in a primordial balance.

The Crest evokes the two fundamental elements of the island: Stone and Water.

The stone represents the solidity, strength, and antiquity of a land that has witnessed the rise and fall of great civilizations. The irregular boulders symbolise the rocks shaped by time and weather, the same rocks that form the imposing Nuragic towers.

Water, a fluid and vital element, is expressed through sinuous curves reminiscent of sea waves.

This duality - stone and water, strength and fluidity, land and sea - is the beating heart of the Shérdan Crest.

OLFACTORY DESCRIPTION

SHÉRDAN

Shérdan opens with a fresh and vibrant breeze of Marine Notes, enhanced by the delicate aromatics of Star Anise, adding a spicy and unexpected zest.

The blend of Algae and Salt intensifies the marine soul of the fragrance, immediately delivering a bold and enveloping character, evoking the salty breeze of the Sardinian coast.

At the heart of the composition, Marine Notes intertwine with the balsamic richness of Wild Myrtle and Gurjun Balsam, creating an aromatic and intense bouquet. This combination adds depth and originality, recalling the scents of the Mediterranean scrub, where the fragrance of wild herbs mingles with the sea.

The base notes highlight the woody essence of the perfume. Virginia Cedarwood blends harmoniously with Myrtle and balsamic undertones, prolonging the marine character of the opening notes.

The base is further warmed by a refined mix of Musks, which complement the earthy notes of Patchouli and the creamy warmth of Malabar Sandalwood, amplifying the fragrance's persistence and depth.

GEISHA

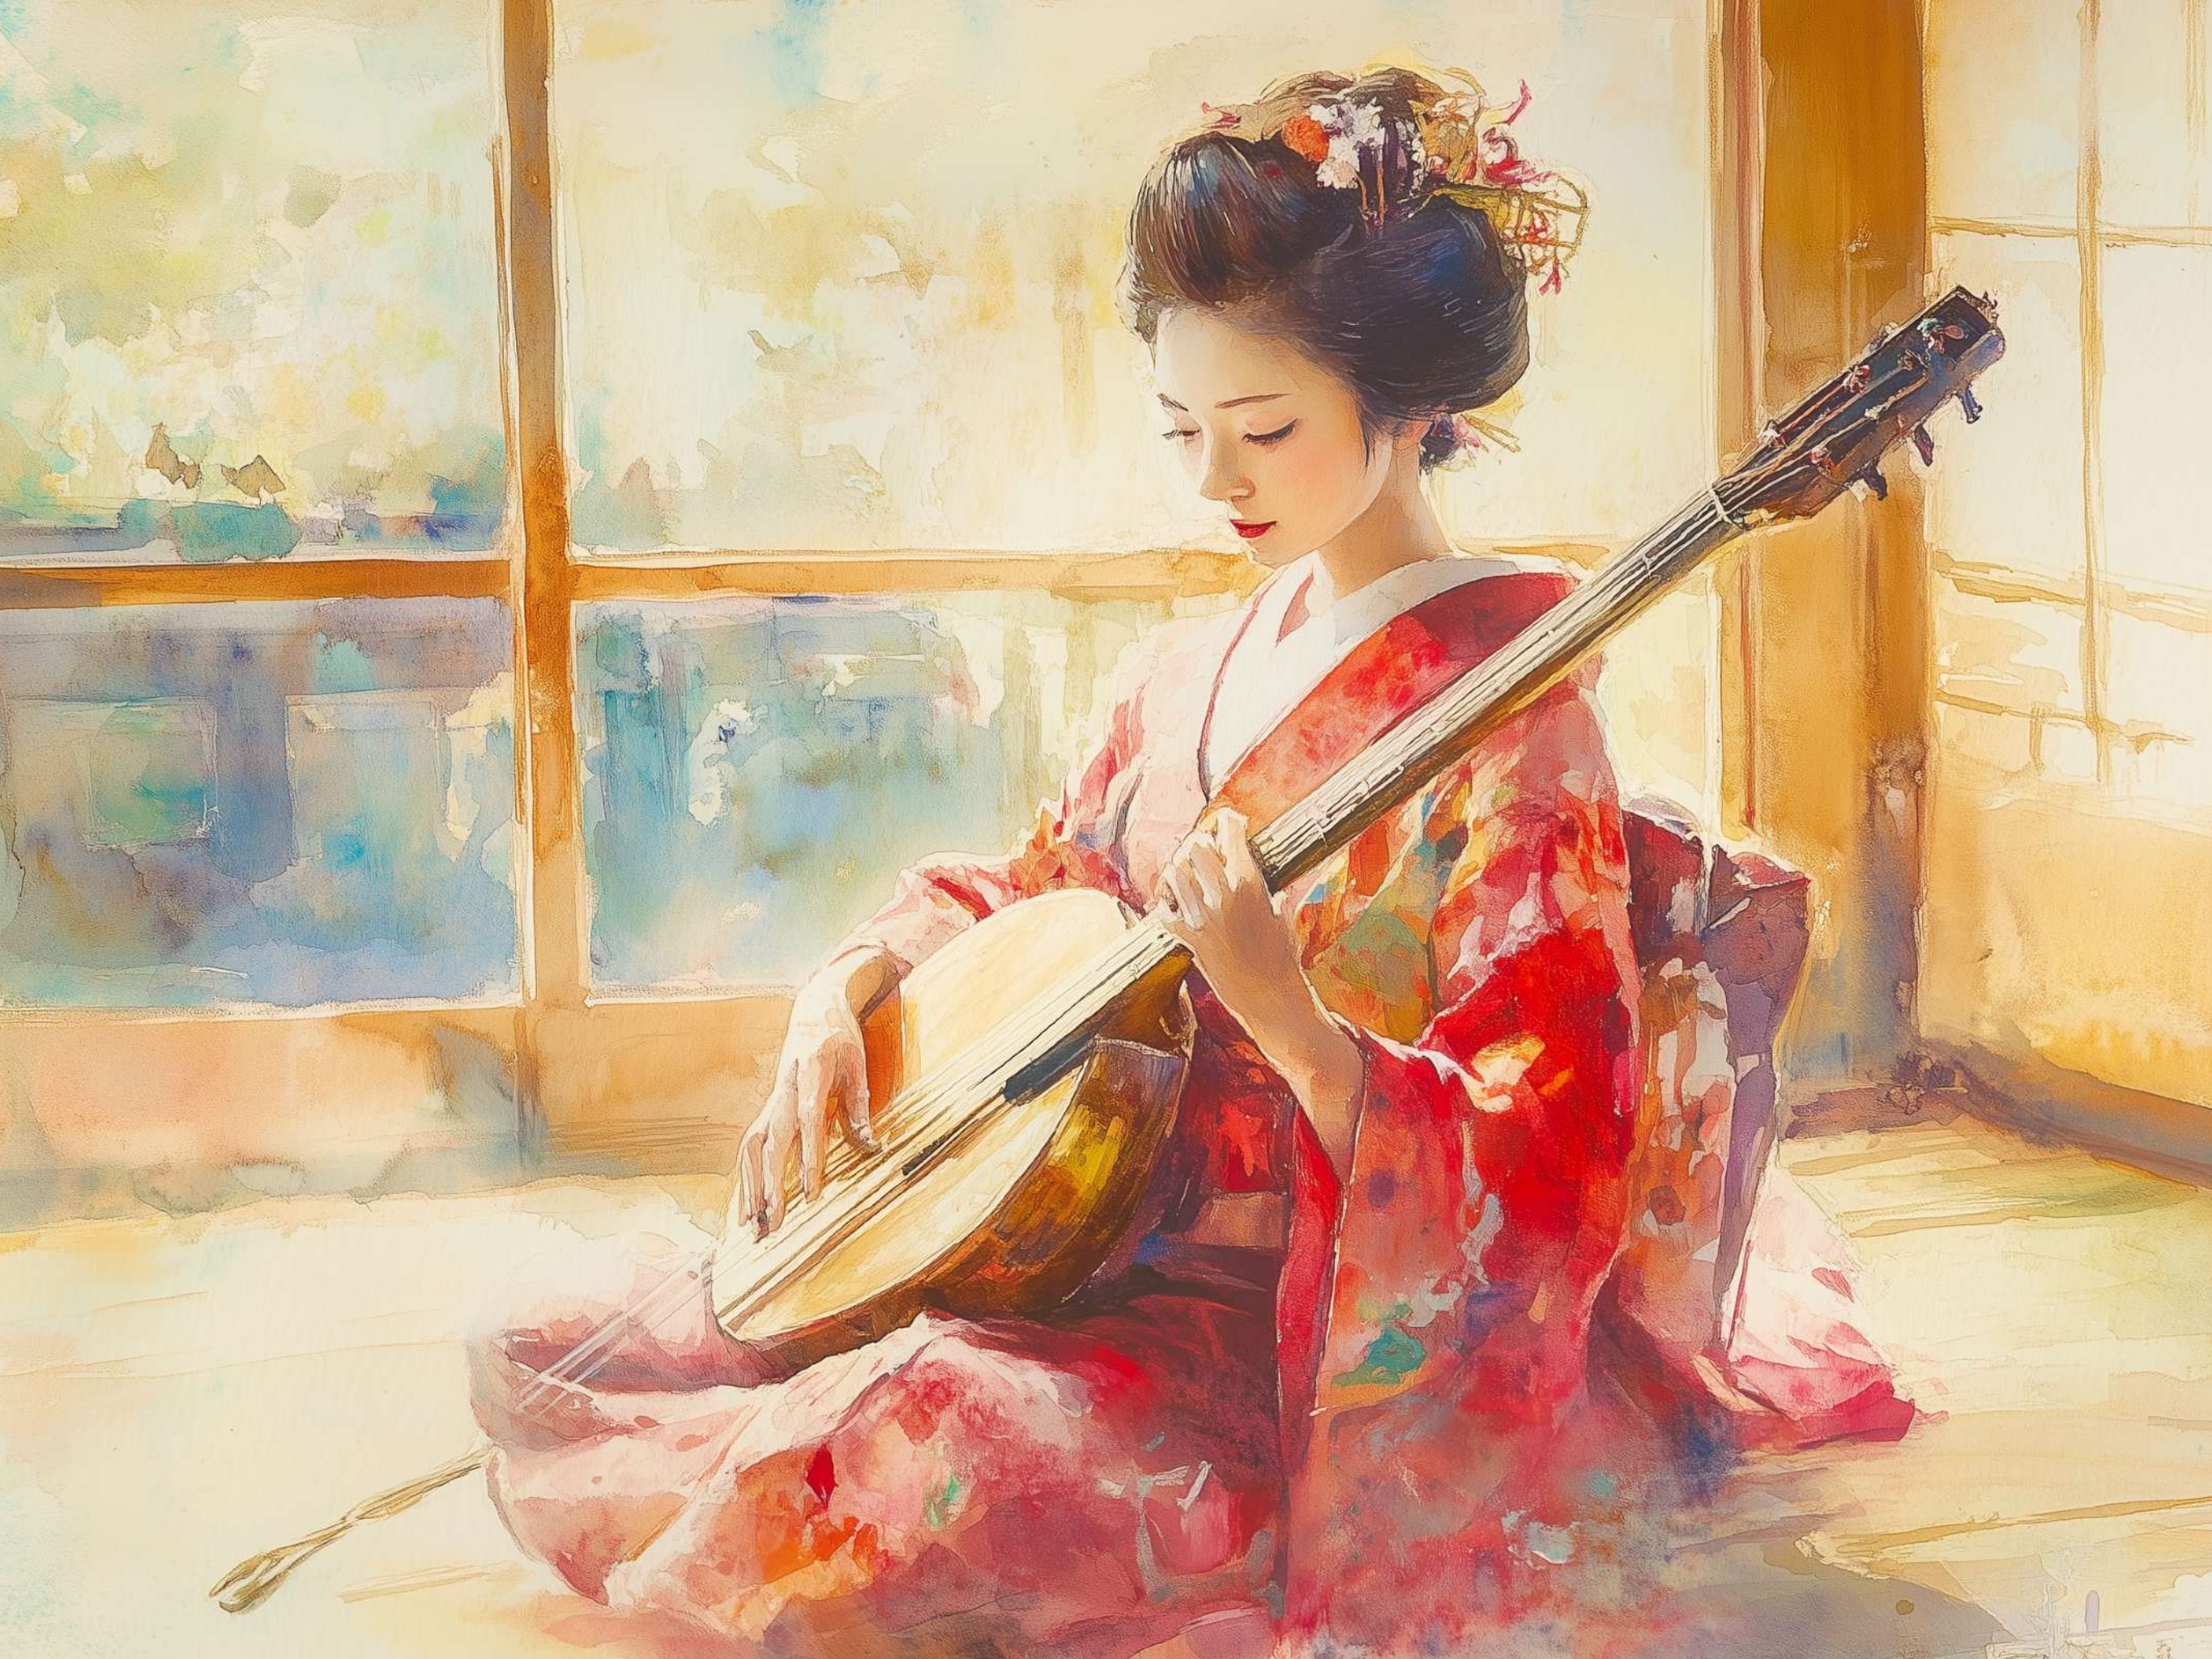

MOOD

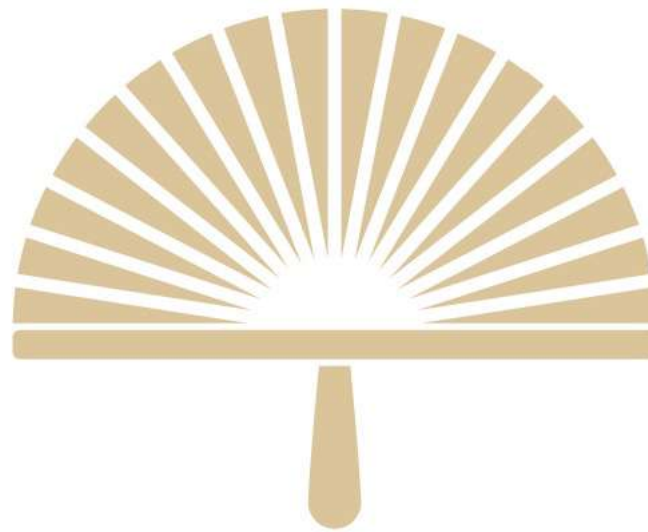

FEMININITY, SENSUALITY, AND ELEGANCE

The Geisha is an iconic figure in Japanese culture, a symbol of elegance, art, and refinement. More than just an entertainer, the Geisha is a guardian of ancient traditions, a master in the arts of dance, singing, and conversation. Through measured movements and graceful gestures, she embodies the essence of artistic beauty and balance, becoming a symbol of femininity that transcends superficial appearance.

Historically, the Geisha represents a form of beauty that goes beyond what is seen, living in the details: a fan delicately unfolding, a subtle smile, a gaze that speaks without words. This mastery in transforming every gesture into a work of art is what makes the Geisha an enduring icon of femininity and allure.

The Extrait is inspired by this subtle and profound beauty, reflected through the image of a young woman who embraces her sensuality with the innocence and naturalness of someone who doesn't need to flaunt it. It is a celebration of authentic beauty, one that doesn't seek attention but draws it effortlessly, like a Geisha who enchants without ever being bold.

The fragrance captures the essence of an innate femininity, disarming in its simplicity. Just as a Geisha, with her mere presence, can transform the ordinary into art, Geisha invites every woman to rediscover her purest beauty - one that shines effortlessly and seduces without words. Geisha is a tribute to the silent strength and innate grace of every woman, a call to live one's sensuality with naturalness and authenticity.

The Crest features an iconic accessory of Japanese culture: the Fan.

The Fan is a highly symbolic and choreographic accessory; Geishas use it to express emotions, tell stories, and represent natural elements like wind, water, and flowers.

Through the skilled use of the Fan, the femininity of the Geisha reaches its fullest expression. Every movement, delicate and precise, celebrates the essence of her being, revealing the timeless grace and charm that only a Geisha can embody.

OLFACTORY DESCRIPTION

GEISHA

Geisha opens with a bouquet of fresh and luminous Floral Notes, where Jasmine, Orange Blossom, and Geranium dance together in a delicate and lively introduction, evoking the natural and innocent beauty of femininity. A fresh and vibrant beginning, like the first steps of a Geisha in her Kimono, light and captivating.

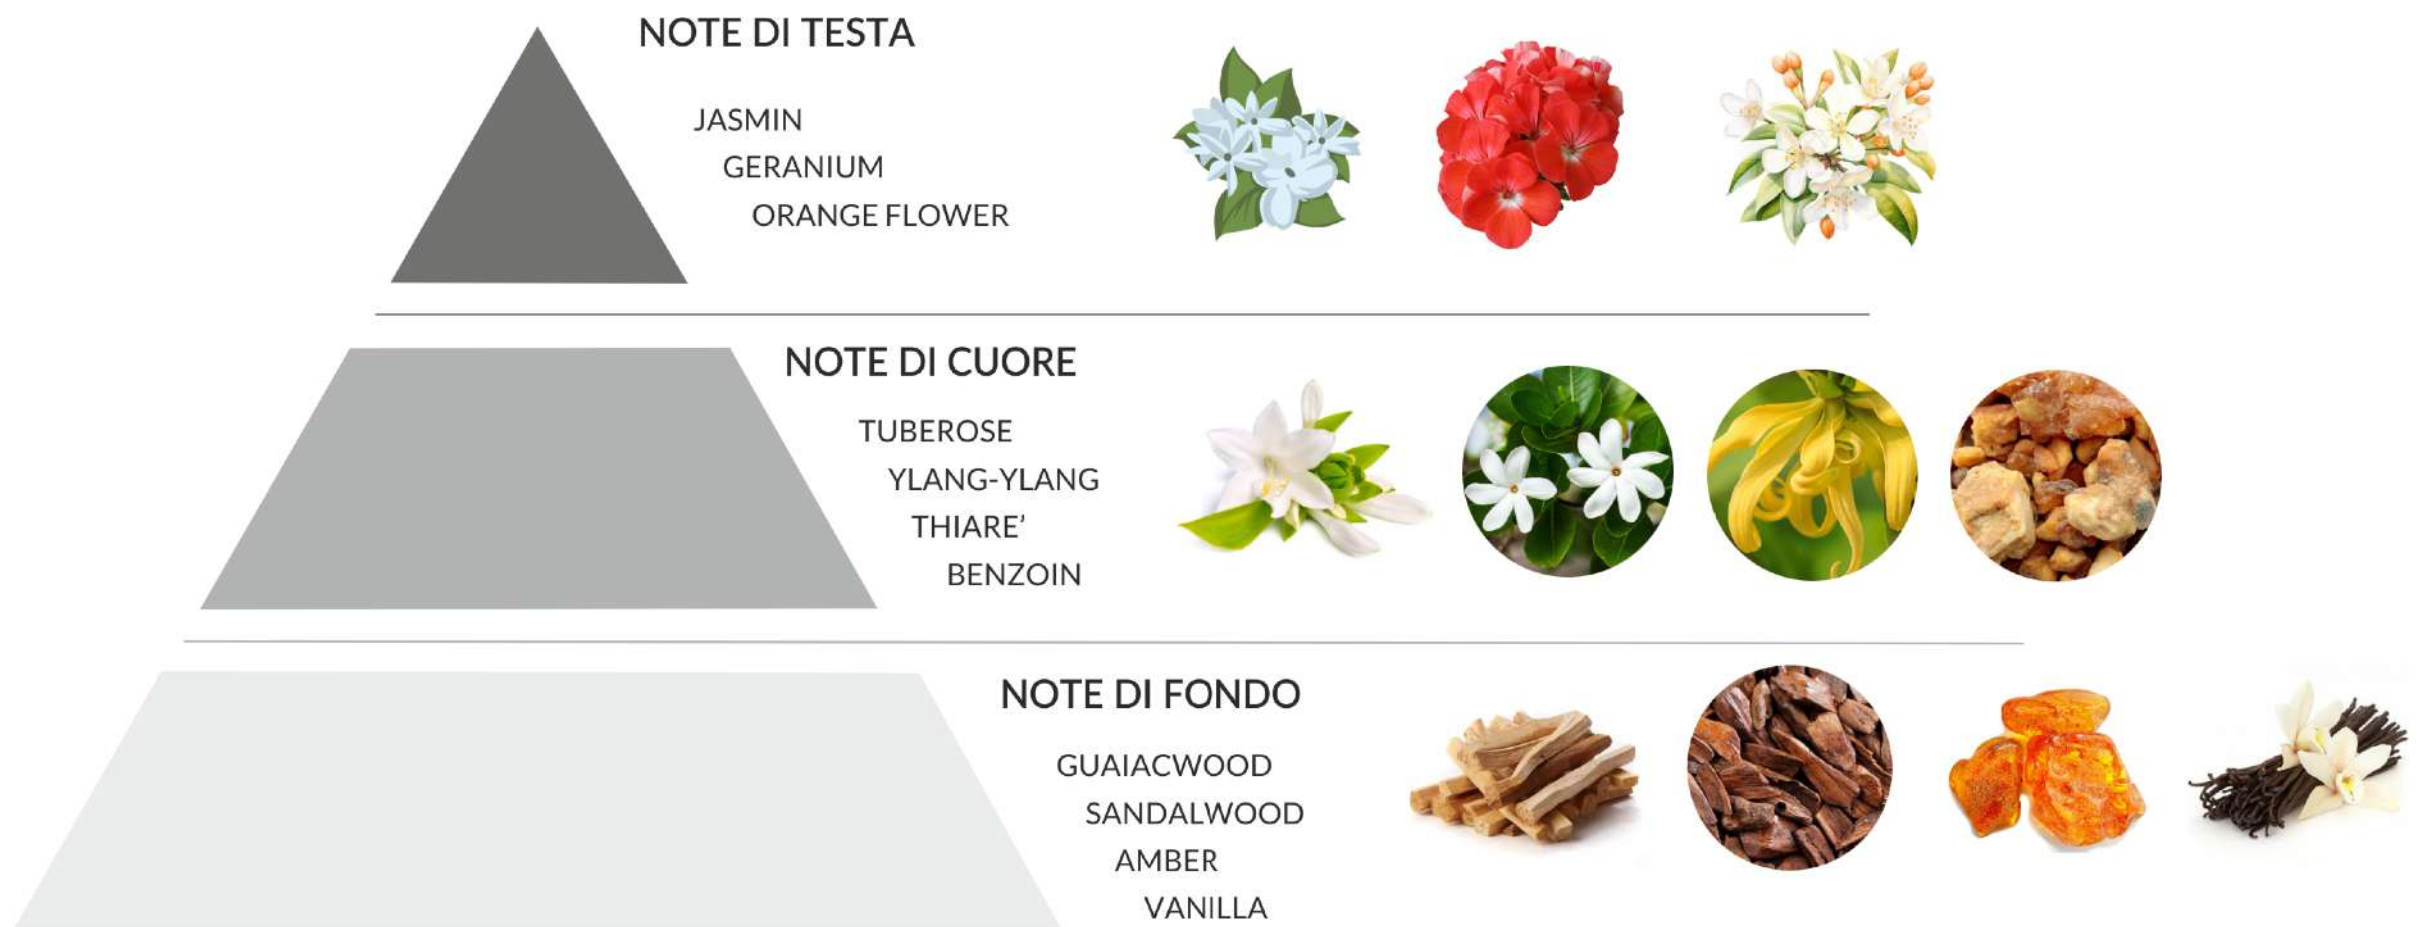

At the heart of the fragrance, Tuberose emerges as the protagonist, expressing a whispered sensuality—never flaunted, yet irresistible in its intensity. The exotic notes of Ylang-Ylang and Tiaré Flower enrich this experience, wrapping the skin with the softness of silk, leaving behind a trail of pure elegance.

The base of the fragrance deepens with warm, balsamic Oriental Notes, as Benzoin pays homage to the cultural roots of the Geisha, intertwining tradition and timeless allure. Precious woods of Guaiac, Sandalwood, and Cedar blend with sweet accents of Vanilla and Amber, evoking the intimacy of ancient gardens and the tranquillity of tea houses.

These notes envelop the composition with subtlety, brushing the skin like a whisper and creating an aura that celebrates the delicacy and mystery of an ancient art. Geisha becomes a sensory journey that enchants and seduces without force, like the gentle touch of a beauty that transcends time.
