

VAPOR
DESIGN

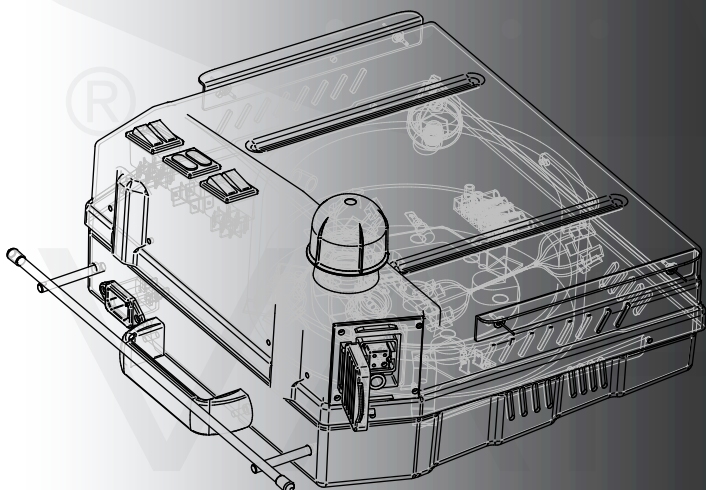

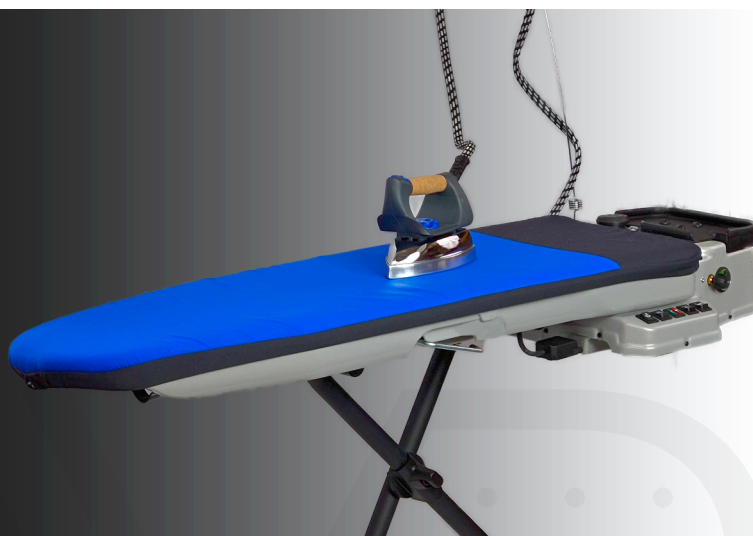

INTEGRATED IRONING SYSTEMS

Company Presentation 2025

About us

Vapor Design SRL is an Italian company based in Nove (VI), specializing in the production of high-quality ironing boards. Founded in 2010, Vapor Design quickly established itself in the market thanks to the extensive experience of its owner, who has been active in the industry long before the company was founded.

Our Products

We offer a wide range of steam ironing and cleaning solutions, focusing on quality, reliability, and innovation. Our product range includes: ironing boards with integrated boilers, stand-alone ironing boards, steam boilers with irons, steam cleaning systems, and much more!

Each of our products is designed to meet the needs of both domestic and professional customers, ensuring excellent and long-lasting performance.

Why Choose Vapor Design

-  Presence in over 30 countries.
-  High-level customer support.
-  Over 10,000 satisfied customers.
-  Full customization to tailor each product to the specific needs of the customer.
-  Fast order processing and shipping.

We offer a complete range of ironing boards with integrated boilers, professional irons, steam boilers, and steam cleaning systems. All products are designed to ensure efficiency and quality in every use.
