SURGICTOUCH®

EVIDENCE BASED FORMULA

An excellent Italian cosmeceutical line led by Aesthetic **Dermo-Surgeon Nicola Pittoni** based on scientifically tested ingredients that act with the same precision as drugs. These cosmeceuticals are formulated for deep delivery into the skin and to boast a real anti-aging action.

An innovative approach called "**Evidence Based Formula**", a method based on the evidence of effectiveness and tangible results and on evidence of effectiveness. Scientific evidence becomes the best strategy in selecting active ingredients for cutting-edge formulas.

This is what distinguishes **SurgicTouch®** from any other purely cosmetic line on the market: each cosmeceutical product is formulated with a logic of care and prevention on all those factors that cause skin aging.

The strong point is to provide visible results on the skin, guaranteeing safety and transparency of the formulation. avoiding the use of harmful substances according to the guidelines of dermatological science.

FOUNDERS

Dr. Nicola Pittoni

In the vast panorama of beauty and skin care, **Doctor Nicola Pittoni**, eminent Dermatologist and Cosmetic Surgeon, has introduced his original imprint resulting from thirty years of professional experience.

His idea of creating a cosmeceutical was born from the need to provide his patients with a scientifically proven product, to complete medical-aesthetic procedures.

Thanks to the important results obtained with his products, Doctor Pittoni has broadened his vision, creating a complete line aimed at those who seriously want to improve skin health according to rigorous scientific principles.

Elena Nassimbeni

The creator of this revolutionary project is **Elena Nassimbeni**, a modern manager capable of promoting a new culture of beauty.

From this extraordinary synergy was born **SurgicTouch®**, a cosmeceutical line that stands out for its effectiveness and transparency in the formulation.
