CONSULTING, DESIGN, SOLUTIONS, TECHNICAL SUPPORT, AFTER SALES SERVICE

ADG SRL is a young and dynamic company founded in 2005 by people already working in the NDT field from a long time.

Its target is to be a reliable reference for all the subjects involved in NDT, Quality Controls and certifications.

Thanks to the collaboration with worldwide leader companies ADG SRL proposes on the market solutions from the smallest accessories to the complete customized and automated system for all the actual NDT methodologies.

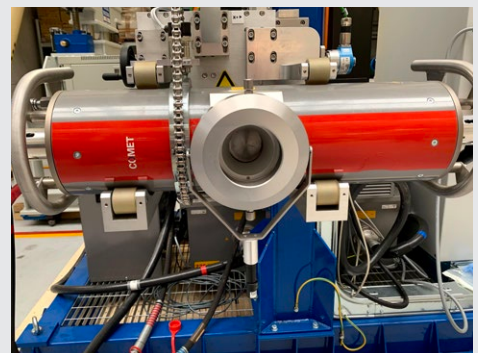

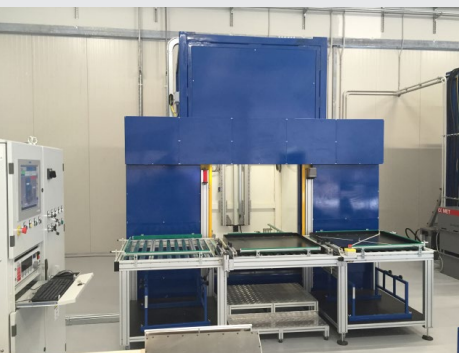

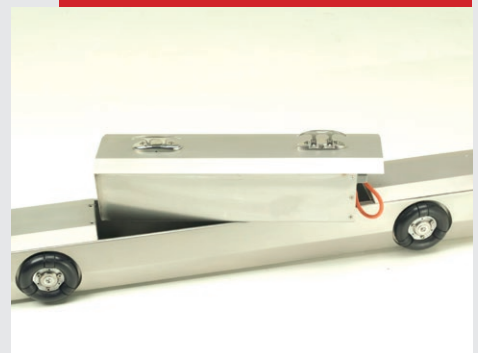

In particular :

- COMET X-ray : Stationary and Portables RX solutions
- EVIDENT - OLYMPUS: UT / PA / VI complete solutions
- CARESTREAM NDT: RT / CR /DR complete solutions
- CGM CIGIEMME: LP / MT complete solutions

More than this, ADG SRL manufactures key in hands systems like Crawlers for RT pipeline inspections or as an example UT customized calibration blocks.

A Repair and Calibration Centre completes the range of offer to the market proposed by ADG SRL.

ADG SRL has three operation facilities located in Rome, Bregnano and Dubai to satisfy the customers needs in the best way possible.

Thanks to a dynamic office team and a strong knowledge by the property, ADG SRL is skilled too for supply all over the world.
