BLACK SHIVER 100 EFB

TENDER VOCATION

Black Shiver 100 combines elegance, performance and flexibility of use.

It represents an autonomous and independent vehicle, to employ for both long distances and daily usage. Elegant, but also high-tech, it works and perfectly combines with any mega yacht thanks to its customization options.

It is a reliable vehicle that is able to confront the conditions of a troubled sea, which is not ordinarily experienced. It is available in two versions: with outboard and inboard propulsion.

The lines of the hull are tested in every sea condition to ensure the vehicle is safe and within the capacity of all, thus offering unique and exciting moments. The accessories developed on deck make it enjoyable and comfortable during navigation as well as during relaxing breaks at anchor.
