

**BLACK SHIVER 200 AD**

## PIONEERING AND WITHOUT BARRIERS

The **BS 200** is ideal for those who want to explore the sea without limits, reaching distant destinations in total safety and comfort. Designed for direct contact with nature, the deck levels, close to the waterline, strengthen the connection with sea and sun.

Thanks to the reduced draft, it allows you to explore shallow waters and get closer to shore. Available in an inboard version with a surface propeller, it offers a spacious dinette under a large roof, equipped with a fridge, sink, kitchen, storage and plenty of seating.

Large lockers allow the storage of equipment. The bow features a large circular sofa, sundeck and dining area, shaded by a sun awning. At the stern, a spacious platform with a bathroom ladder and side access with a shower guarantee a direct contact with the sea.

The equipped and dominating driving console makes the **BS 200** easy to manage and reliable, even for the less experienced sailors.
