

BLACK SHIVER 120 FB

CERTAINLY UNRIVALLED

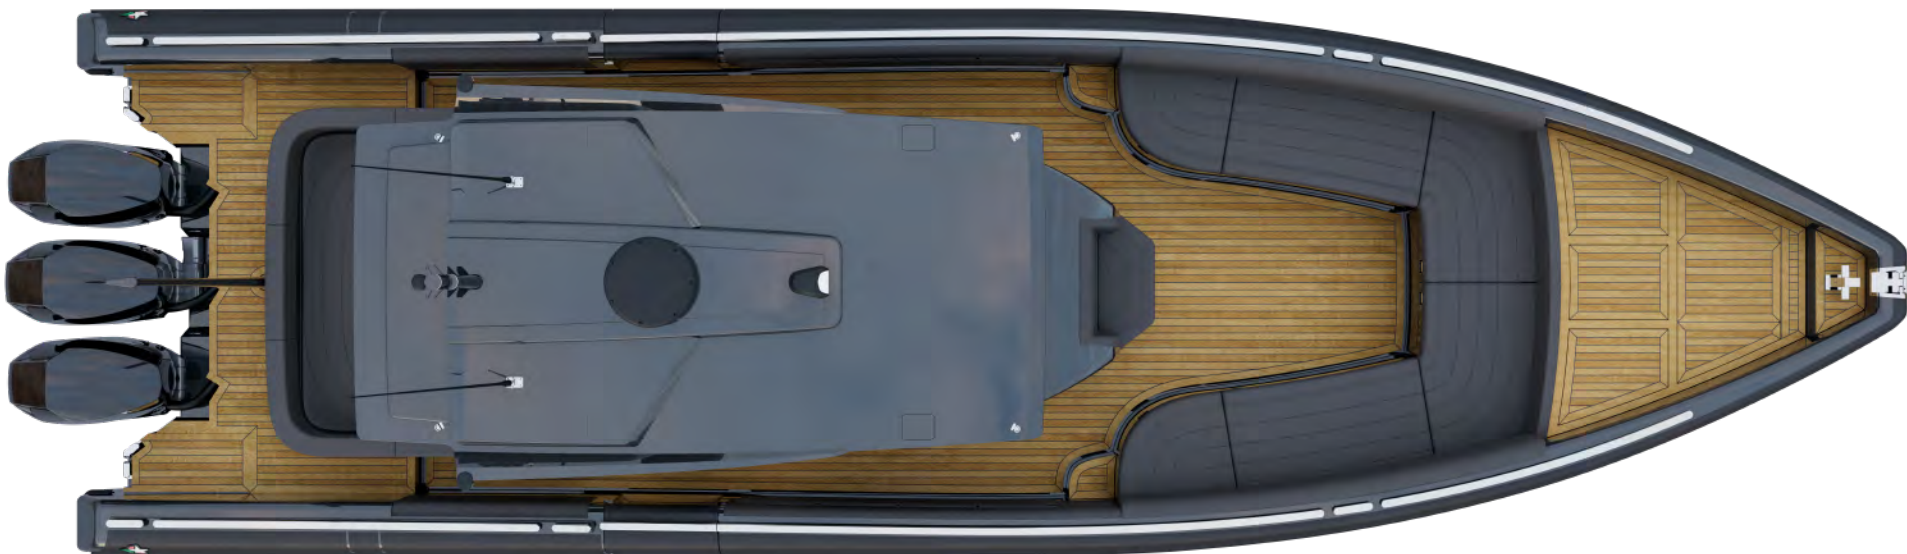

Driving our **BS 120** is thrilling and fuelled by adrenaline, offering confidence and comfort and moving safety standards well beyond their usual perception during navigation. The 12-meter hull, with appropriate adjustments, is one of the most demanded measurements for military purposes, precisely for its unrivalled features. This very successful project offers powerful emotions and absolute control of the vehicle to whomever drives it, thanks to the sense of safety that enables its owner to feel like the true master of his experience.

The inboard choice allows to employ the aft part at its best to create wonderful accessibility to the sea. In both versions, the measures on deck offer various solutions and accessories that make life on board comfortable and extremely enjoyable, enhancing the connection to the sea through laterals doors and aft access. The comfortable seating and deckchairs highlight the conviviality promoted by the vehicle, along with the awnings that overshadow almost the whole surfaces on deck. All of this makes our **BS 120** a unique vehicle with exciting and comfortable features which transport its owner in a captivating and motivating world, where the NOVAMARINE philosophy expresses all its energy.
