# LECOMFORT IS...

## 4. INNOVATION

Keeping up with the times by flowing along new horizons of technology, within the boundaries of traditional manufacturing. Invisible mechanisms created to expand and amplify the experience of comfort.

## 5. DESIGN

Quality materials combined with versatile function, interacting with an in-depth study of style, interpretate a variety of different aesthetic inclinations to create the design concept in line with the imaginary of LeComfort. Substance and form come together in unision.

## 6. RESPECT FOR NATURE

The LeComfort universe fits into that delicate balance which for centuries has seen man involved in a wonderful yet precarious relationship with Nature. Designed on a human scale and dedicated to protecting nature, the LeComfort approach, in all stages of production, comes from an unconditional respect for the environment, first and foremost advocate of well-being.

# THE SOFA, PROTAGONIST OF THE FURNITURE.

Prestigious fabrics and textures in refined colors, together with studied structural compositions, make the LeComfort sofas the perfect combination of design and function: from adjustable headrests and pull-out seating, to the predisposition for convenient container elements, the sofa becomes a dynamic element of home space, participating in the movement of everyday life, without losing the identity of original style.

In addition to fabrics, the collection of leather sofas evoke an imagery of strength and vigor, as well as a timeless versatility.

# THE BED, HOMELY SHELTER FROM THE DAILY HUSTLE.

The ultimate venue for rest, sleep and dreams, as well as a fundamental element of home decor, the bedroom, according to LeComfort vision, is the space meant to create a haven of relax, far from the hectic pace of the day. The LeComfort beds come in a large and expressive gallery of styles, all sharing a scrupulous attention to detail and design.

The principle of functionality takes inspiration from dreams and becomes reality: the predisposition for a container or a raisable structure enable an intelligent use of space, while an eclectic choice of fabrics available for both beds and sofas, allows a consistent dialogue with the home decor.

# THE ARMCHAIRS: RELAXING ISLANDS WITH A REFINED DESIGN.

Small oases of relax, LeComfort armchairs are conceived and designed to call to mind and accompany the lines of the sofa, whilst maintaining a fundamental autonomy.

Available in a variety of styles, patterns and colors, these chairs know how to elegantly occupy even the less used corners of the house, normally under-valued spaces within the perspective of interior design that are often destined to go unnoticed.
