

FROM 1978 FOR SECURITY AND FREEDOM:

TGR SRL

Strumenti di libertà

DAL 1978

Nel 1978 nasce T.G.R., l'Azienda leader nel settore della costruzione di mezzi a trazione elettrica per il superamento delle barriere architettoniche. Ad oggi, oltre 50.000 persone grazie ai ns. mezzi hanno scoperto la possibilità di riconquistare, almeno in parte, la propria autonomia.

Means of freedom since 1978

In 1978 T.G.R. was founded, the leading company in the construction of electrically driven vehicles for overcoming architectural barriers. To date, more than 50,000 people have discovered the possibility of regaining, at least in part, their independence thanks to our vehicles.

1982

SCOIATTOLO

This product made the history of mobile stairlifts in Italy, it was the product that made it easy to overcome architectural barriers.

EMILIO TOSELLI

Founder and creator of the products that have brought TGR into the world.

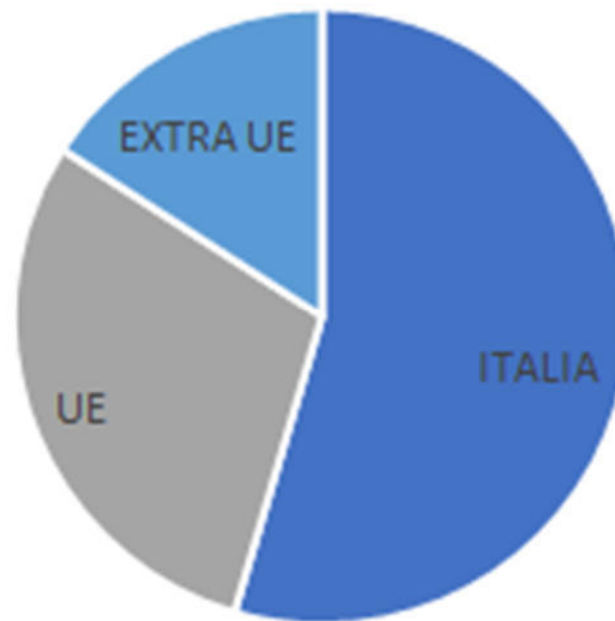

BARRIEREN

Emilio never liked barriers, be they physical or mental, and the search for a way to give freedom to others was his goal.

ITALY

1991

after supplying every type of facility, ranging from public and private buildings to airports, EXPLORER was launched, the only machine in the world capable of climbing stairs independently and without fixed structures.

1994

the market demands a tracked stairclimber and TGR is ready to put the smallest, most manoeuvrable tracked stairclimber on the market, with a patented safety system - a success as well!

2009

For Emilio, freedom is also the ability to look into the eyes of those around you, which a normal chair does not allow, and so SUPREMA was born.

IN NUMBERS

150.000 SATISFIED CUSTOMERS

14 CONCESSIONARIES WORLDWIDE

1 SUBSIDIARY IN EUROPE

2019/2020

TGR receives recognition from the European Community by co-financing the revolutionary new SIRENA stairclimber.

TGR is more than happy to
assist you and invites you to
contact its local
representatives who will help
you make the best choices.
