

Ossola Impianti srl - Società Benefit
Company Presentation

About us

Founded in 1978 and led today by CEO Alberto Ossola, Ossola Impianti is a benchmark in Italy for sustainable, advanced technological solutions. We operate as a multi-service company across sectors such as photovoltaics, energy efficiency, construction, asbestos removal, and technological systems. We are deeply committed to innovation, customer satisfaction, and environmental responsibility.

Vision & Mission

Our vision is to become a national and European leader in integrated services, combining sustainability and technological excellence. We strive to create long-term value for our clients, partners, and communities through continuous innovation, teamwork, and a strong customer-centric approach.

Key Values

- Continuous Innovation
- Excellence and Reliability
- Sustainable Growth
- Client Focus
- Team Development and Training
- Responsibility towards Environment and Communities

Main Services

Photovoltaic Systems

Turnkey solutions for industrial, agricultural, and large-scale installations (25+ MW installed by 2024).

Energy Efficiency

Tailored consulting and implementation for energy audits, upgrades, and access to incentives.

Construction Public Works

Expertise in civil and industrial buildings, public tenders, and nZEB buildings.

Technological Systems

Custom electrical, HVAC, and automation systems for industrial and tertiary sectors.

Asbestos Removal

Full-cycle asbestos and Eternit decontamination, compliant with the highest safety standards.

Electrical Panels Division

Custom-made industrial and photovoltaic panels, including smart off-grid and monitoring solutions.

Markets Served

Investors

Large-scale energy infrastructure projects, full project management, ROI/ payback support and O&M.

Companies

Industrial photovoltaics, energy retrofit-
fitting, building automation, and ESG consulting.

Public Administration

Green public buildings, infrastructure,
urban lighting, energy audits, and smart city systems.

Operating nationwide with focus regions such as Piedmont, Lombardy, Veneto, and Emilia-Romagna, Ossola Impianti completed:

62
Photovoltaic plants in 2024

290
Total contracts

25.5 MW
Installed capacity

Sustainability Commitment

We align with the UN 2030 Agenda for Sustainable Development, focusing on clean energy, climate action, inclusive growth, and ESG governance. We've also initiated impactful social projects with organizations like Caritas, City Angels, and sports inclusion programs.

2025 Goals

- Continue ESG integration in all business processes
- Expand across European markets
- Integrate AI, IoT, and digital platforms into service delivery
