Outdoor Kitchen Unique Durable Italian

For Architects and Designers

*“ Progettare significa trasformare lo spazio in emozione.
Noi lo facciamo sotto il sole e le stelle ”*

Vidali's Project Team

*“Designing means transforming space into emotion.
We do it under the sun and the stars”*

Vidali's Project Team

Pionieri del settore

Vidali Outdoor Kitchen® nasce nel 2018 a Pesaro (PU), nel cuore dell'Italia, da un'intuizione sviluppata a partire già dal lontano 2014 per mano del suo fondatore, Simone Vidali che ha dato vita ad un nuovo paradigma rivoluzionando il concetto di cucina e portandolo all'esterno.

Specializzata nella progettazione di cucine in acciaio inossidabile e ceramica, l'Azienda offre soluzioni modulari ed eleganti, create per resistere nel tempo, adattandosi perfettamente ad ogni contesto esterno. Le componenti, dagli elettrodomestici alla ferramenta, vengono selezionate e progettate con la massima cura garantendo unicamente l'utilizzo di materiali di primissima qualità.

Il progetto ***Vidali for Architects & Designers*** è indirizzato a quei professionisti che cercano eccellenza e proposta distintiva: un prodotto raffinato che arricchisce qualsiasi progetto, elevando lo spazio esterno a una nuova dimensione di bellezza e funzionalità, senza compromessi e senza tempo.

Essere i primi a credere nelle cucine per esterno ha significato costruire una solida reputazione, supportata da anni di esperienza e progetti portati a termine.

In un settore dove un dettaglio può compromettere qualità del progetto e reputazione professionale, non c'è spazio per le improvvisazioni.

We are pioneers

Vidali Outdoor Kitchen® was founded in 2018 in Pesaro, in the heart of Italy, stemming from an idea developed as early as 2014 by its founder, Simone Vidali, who gave birth to a new paradigm by revolutionizing the concept of the kitchen and bringing it outdoors.

Specialized in stainless steel and ceramic kitchens projects, the company offers modular and elegant solutions built to stand the test of time, perfectly adapting to any outdoor environment.

All components, from appliances to individual screws, are carefully selected and designed to ensure the exclusive use of the highest quality materials.

The ***Vidali for Architects & Designers project*** is aimed at professionals who seek excellence and distinctive proposals: a refined product that enhances any project, elevating outdoor spaces to a new level of beauty and functionality, without compromise and timeless.

Being the first to believe in outdoor kitchens meant building a solid reputation, supported by years of experience and successfully completed projects.

In a sector where single details can compromise the quality of projects and professional reputation, there's no place for improvisation.

Sunny & Quid

L'essenza della cucina outdoor

Design, tecnologia e resistenza senza compromessi. Modularità e massima personalizzazione incontrano materiali di pura eccellenza, dalle ceramiche alle finiture in acciaio. Il mondo dell'outdoor diventa una esperienza esclusiva dove l'estetica e la funzionalità convivono in perfetta armonia.
