Our values

Since its foundation, Alta Natura[®] has stood out for its search for the right blend between science and nature with cosmetics that combine the virtues of nature's active ingredients with the most advanced technologies, with a view to a natural and sustainable lifestyle.

Attention and sensitivity towards the origin of the raw materials, safety of the products and packaging are the essential requirements of the philosophy of Alta Natura[®] - Cosmetics of Excellence. Creators of innovation, by passion, we use the precious natural elements, characterizing the territory, and we combine them with the most sophisticated scientific research techniques, thus obtaining dermocosmetic and cosmeceutical preparations able to interpret and satisfy the needs of the most demanding consumers.

Moved by love for our land and proud of the opportunities that it offers us, we address part of our revenues to the sustainability of production cycles and to the fight against the waste of natural resources, because we believe that everyone's contribution is the resource adding value to Alta Natura[®].

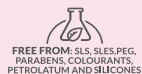

Alta Natura® dermocosmetics is the result of formulas developed in certified laboratories, where expert researchers make their skills available to design bioinnovative formulas. The high concentrations of natural active ingredients, providing visible benefits to the face skin, intervene on imperfections and delay the inevitable effects of age. An extraordinary program for the skin and the body, providing the perfect Beauty to Nature.

AUREA

AUREA provides functional treatments inspired by the golden section, a sequence of numbers whose geometric representation resonates with nature, art and forms of the human body. AUREA dermocosmetics treatments enclose this philosophy in order to enhance the natural perfection of face, through highly effective formulas, with functional active ingredients of vegetable origin which improve skin well-being counteracting skin imperfections and ageing, for a naturally perfect skin.

Anti-dandruff

The ANTI-DANDRUFF SHAMPOO, which effectively combines TCL® by Alta Natura and Black Pepper and Inga Alba extracts, Trehalose, Hyaluronic Acid, and Pullulan, soothes the scalp while restoring its natural balance. Research into the complex made up of Trehalose, Hyaluronic Acid, and Pullulan has shown that the active ingredients contained in Trichology Lab® ANTI-DANDRUFF SHAMPOO drastically reduce itching caused by dandruff. Black Pepper and Inga Alba extracts also have a powerful sebum-regulating effect on the scalp.

Contents: 250ml

How to use: Apply the shampoo to a wet scalp and massage gently for a few minutes, then rinse thoroughly. Visible results from the very first treatment. For best results, complete the treatment by using the ANTI-DANDRUFF CONDITIONER and the INTENSIVE ANTI-DANDRUFF TREATMENT.

The hand care line counteracts the alteration of the optimal condition of hand skin due to the daily and repeated use of soap and sanitizer gels. It also prevents the consequences of temperature changes during winter, thus improving circulation and counteracting chilblains, and soothes the symptoms linked to the daily use of aggressive detergents and products for the hygiene of the house, as well as of the use of antiperspirant rubber gloves. Finally, this line counteracts time signs and skin ageing.

Captivating body washes for the whole family

The body washes line, suitable for the whole family, by Alta Natura® praises the aromatherapy virtues meeting the regenerating abilities of phytocosmetics, giving the skin a natural fragrance stimulating the body and relaxing the mind. The cleansing action of the selected natural surfactants purifies and regenerates the cell layers. The restoration of the hydrolipidic film counteracts skin dehydration and dryness, increases the tolerability degree of the skin towards external stressors and reduces the degree of sensitivity and irritability, in favour of total daily protection. For skin care and beauty; for the well-being of body and mind.

Specific treatments for pregnancy

8° month nipples oil

Against breast rhagades

Useful during pregnancy and breastfeeding for dehydrated and sensitive nipples. Quick relief.

Contents: 30g

How to use: Wash your hands carefully before using this product. If the tube is stored in the fridge or at a temperature below 10°C, it is suggested to warm it up between your hands for some minutes in order to improve the emission of the contents. During pregnancy: From the 32ND week apply a small amount of this oil on nipples and areola. Then massage and do stretching and rotation exercises (See leaflet). During breastfeeding: Apply a small amount of the product and massage with circular movements when necessary. It is not necessary to wash the affected areas since this product doesn't cause any problem if the baby ingest it.

Ingredients:

Butyrospermum Parkii Butter*, *Cocos Nucifera* Oil*, Lanolin, Tocopherol, *Colostrum*, *Prunus Amygdalus Dulcis* Oil.

(*) Ingredient from organic farming.

PRODUCT FUNCTIONS
